

Welcoming Remarks

Welcome, everyone, to 180DC UGM. I am genuinely happy to see so many of you taking the first step to learn more about this organization. When I first joined, I expected to gain practical experience in solving business problems. What I did not expect was how much the journey, the challenges, and especially the people here would shape the way I think, work, and see my own potential.

180DC has been a meaningful place for me to grow, both professionally and personally. I know some of you may also be looking for a place where you can challenge yourself, meet people who inspire you, and discover what you are capable of. You do not need to come in knowing everything. What matters is your willingness to learn, contribute, and go through the process alongside others.

That is what I hope to bring to 180DC UGM this year: an environment where every member can **grow, belong, and lead**, where you are encouraged to keep developing, surrounded by people who make you feel supported, and trusted to take ownership in your own way. As you go through this recruitment process, I hope you see it not only as a selection, but also as an opportunity to learn more about yourself and the impact you can create.

Clairina Elvina Indriani
President

About Us

180 Degrees Consulting meets the needs of non-profits by providing very affordable, high-quality strategic and operational advice by utilizing the untapped potential of top university talent.

180 Degrees Consulting is the world's largest volunteer-led consultancy for non-profits and social enterprises, with over 150 branches across 35+ countries and over 10.000 consultants.

Our Mission

Improve education, reduce homelessness, and alleviate poverty by helping non-profits receive the support and expertise they need to improve and expand their services.

Provide non-profits with advice, future leaders with training and development, and vulnerable communities with more effective charity.

180DC UGM is committed to giving back to society and delivering excellent standards in everything we do, as illustrated by our university motto to be **“Populist, Independent, and Sustainable”**. Yogyakarta has a robust social entrepreneurial ecosystem. Consists of Non-Profit Organizations, Non-Governmental Organizations, and SMEs.

Some of them sometimes face serious problems that threaten their existence, and many of them need help to develop their organizations. We are there to help them by providing pro bono consulting services by a qualified and trained student. We do what we do because we believe in effective charity, and because we believe in developing the next generation of social impact leaders.

WHY 180DC UGM?

180 Degrees Consulting is the world's largest university-based consultancy for nonprofits and social enterprises. We connect university students with purpose-driven organizations to solve real challenges and create lasting social impact.

We strive to empower non-profits and social enterprises to reach their full potential by delivering affordable, high-quality strategic and operational support, helping our clients create real impact in their communities.
